RSU 57 prepares respectful, responsible and creative thinkers for success in the global community.

4/28/2017

Dear Parent, Guardian or Staff Member;

I am writing to let you know that a pesticide with a trade name of Acelepryn & Dimension, and the EPA registration number of 9198-254, is scheduled to be applied on Wednesday, May 3, 2017, at the specified location of the High School Ball Fields. This is being done to help manage grubs and crabgrass as part of our Integrated Pest Management Program to ensure a healthy school environment. Signs will also be posted at access points and at the High School main office at least two working days prior to, and will remain posted for 48 hours after, the application. This notice is being provided at least 5 days prior to the planned pesticide application in accordance with our school's Integrated Pest Management Policy and in compliance with Maine Board of Pesticides Control Regulation CMR 01-026 Chapter 27.

For further information regarding this action please contact the IPM coordinator Colin Walsh at 247-3221 (ext. 2204).

Sincerely,

PESTICIDE TRADE NAME: Acelepryn + Dimension

EPA REGISTRATION # 9198-254

LOCATION High school Ball fields

REASON FOR APPLICATION To manage grubs and Crabgrass
