

## Information for High School Seniors and Adults

(Graduates with Diploma, HiSET, or GED)

thinking about a Certificate and/or Degree at  
YCCC Sanford Precision Machining.

- It can be a **free** education by pursuing scholarships.  
(See Scholarships next page.)
- There is a realistic likelihood of a very good **starting salary** within months of starting the program. We are talking up to **\$18 to \$23+** per hour. (Pratt Whitney and General Dynamics to name two, but also Arundel Machine, Parker Hannifin in Kittery, Dearborn in Fryeburg, and Safran in Rochester and 15+ other companies).
- There is a possibility of **paid Bachelor's (and Master's) degrees** with many of these hiring companies.

We have a film being made using various social media formats for students (and parents) to understand what Precision Machining is. In the meantime, check out: [www.pmpa.org/careers/career-benefits](http://www.pmpa.org/careers/career-benefits).

Coursework includes conventional mills, lathes, grinders, and drill presses along with CNC (Computer Numerical Controlled) mills and lathes. (**See courses next page**).

And, YCCC Sanford will be offering the first college certificate in Maine in **Additive Manufacturing** (3D printing).
